

Opening event of the TRIDIAG project

New diagnostic tools in transplantation medicine

Tuesday, January 17

10 : 00

----- Café & croissants -----

10 : 20

Welcome address

Pr. Jean Sabilia, Dean of the Faculty of Medicine, Université de Strasbourg

Pr. Ermanno Candolfi, Chief Scientific Officer, Hôpitaux Universitaires de Strasbourg

10 : 45

Introduction and presentation of the TRIDIAG project

Pr. Seiamak Bahram and Dr. Raphaël Carapito, Université de Strasbourg & HUS

11 : 15

Allogenomics in solid organ transplantation: beyond the mask

Pr. Alexandre Hertig, Hôpital Tenon, Paris

11 : 45

Using zebrafish to model hematologic disorders

Pr. Claudia Lengerke, Universitätsspital Basel

12 : 15

----- Lunch Buffet -----

13 : 45

ILC and GvHD

Pr. Andreas Diefenbach, Universitätsmedizin der Johannes Gutenberg Universität Mainz

14 : 15

Factors contributing to the pathogenesis of GvHD

Pr. Robert Zeiser, Universitätsklinikum Freiburg

14 : 45

Fully phased, allele-specific HLA sequencing

Dr. Ralph Vogelsang, Pacific Biosciences

15 : 15

The Ying & Yang of HLA in regenerative medicine

Pr. Dominique Charron, Hôpital Saint-Louis, Paris

15 : 45

----- Coffee break -----

16 : 00

Impact of donor-specific HLA antibodies on kidney graft outcome: Recent data from the CTS Study

Pr. Caner Süsal, Universitätsklinikum Heidelberg

16 : 30

Transplantation for bone marrow failure in children

Pr. Catherine Paillard, CHRU Strasbourg

17 : 00

HLA sequencing in routine medical care

Dr. Christophe Picard, Etablissement Français du Sang, Marseille

Amphithéâtre – FORUM – Faculté de médecine

4 rue Kirschleger / 67000 Strasbourg
